**MARKET ADDRESS INFO HERE**

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturer reserves the right to vary their specification, including colours, with or without notice at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult the Dealer with whom your order is placed for details of the specification of any particular product. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor. While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised.

When we designed our range of gardening products we looked at your life from every angle.

Everything we learn from everything we do, goes into the development of our lawn and garden products, allowing us to create new technologies and new ways of solving problems. Not only making them the very best they can be, but making them a joy to use and own. So it's not just clever engineering, it's **ENGINEERING FOR** *Life*

# Honda Universal Battery System

Durable. Reliable. Powerful.

With a single Honda Li-ion battery, you can power any of the different tools within the Honda cordless range. This means that, not only can you swap batteries between tools easily and quickly, but you don't need to keep a different battery for every product you own.

Built to deliver for as long as you need it to, each battery is built on Thermo Smart technology for higher performance, all-day usage and significantly longer battery life. A constant high current provides unwavering performance, whilst an LCD screen\* displays the battery life and charge level at all times. Recharging is quiet and fast, thanks to our chargers that can deliver 100 % capacity in just 35 minutes.<sup>A</sup>

All Honda Li-ion batteries have unique, heat-conducting housings to extend their life, as well as compact casings that can withstand the bumps and knocks they will encounter in everyday use. Crucially, they can be changed in seconds, so you can work without interruption. Honda Li-ion batteries are built for gardeners who need to work all day, every day, until the job is done.

<sup>A</sup>36V 4.0Ah battery

NEW

### LCD Display\*

Clear LCD display showing you the remaining charge as a percentage.

### Fully Weatherproof\*

Sealing of cells enables the battery to be used all year round, whatever the weather.

### High Performance

Delivers constant power supply throughout battery charge

### Robust construction

The 9.0Ah heavy duty battery has an aluminium sub-frame material and a robust outer casing protecting the inner cells, it can even withstand a 2 m drop.

### Thermo Smart Technology

Thermo Smart improves heat dissipation from the inside to the outside of the battery for longer lifetime and runtime. Allows continuous high current draw for all day usage and high performance, even under heavy conditions.

# Cordless Lawnmowers

The izy-ON delivers the power and durability that serious gardeners need. Our new cordless range is packed with helpful technologies like single speed transmission and Versamow™ Selective Mulching, which allows you to switch between collecting or mulching grass.

The izy-ON works with the Honda Universal Battery System, which means unrivalled performance throughout the day. It can handle areas of up to 450 m<sup>2</sup> on a single charge, so you can cut even the largest lawns with confidence - and with a fast charger available, you can recharge within minutes if necessary.

\*Achieved when using the 6Ah battery. Area capacity depends on grass conditions.

## THE RANGE

HRG 416 XB

HRG 466 XB

## LAWNMOWER TECHNOLOGIES

### Versamow™ Selective Mulching System

With a single lever, Honda's Versamow™ system will either collect the grass cuttings into the bag or finely shred and blow them down into the lawn to create a natural fertiliser.

### Cordless

Efficient performance and sustained power thanks to our latest combination of battery and motor technology, so it can keep going as long as you can.

## Lawnmower features

### Cutter deck height adjustment

Adjusting the cutting height of your grass is effortless by allowing precise control of lowering or raising the deck.

### Pressed steel, powder coated decks

The decks are built for durability and performance. They are lightweight for easy manoeuvrability whilst still being hard-wearing and resistant to deterioration from corrosion and UV rays.

### Easy start push button

Start your lawnmower with a simple push of a button that's easily accessible.

### Versamow™ selective mulching

Switching between mulching, collecting or discharging is simply achieved by adjusting a lever. There is no need to insert a separate mulching plug when you wish to mulch, this capability is integrated and can be activated or deactivated quickly, easily and safely.

### Weatherproof

We know you don't want to stop when the rain starts to fall. That's why our cordless izy-ON range is safe to use in all weathers. Even the battery has additional weatherproof coating\*.

\*Only on 36V 9.0Ah DPW3690XA batteries.

\*Available on the HRG 466 XB.

izy-ON cordless lawnmowers

# Power without compromise

Easy start push button

Cutter deck height adjustment

Versamow™ Selective Mulching

**Driven by a powerful brushless 1.8kW motor and new battery technology, our izy-ON sets the standard for cordless lawnmowers.**

Built around a robust steel frame and best-in-class pressed steel cutter deck for outstanding durability, the izy-ON lawnmower features a single-speed transmission to ensure sustained cutting power at a comfortable walking speed, and because it's lightweight, it can turn in the tightest of spaces.

Built to avoid clogging and reduce maintenance, it includes a high-air flow collection bag to maximise pickup, flexible cutter height adjustment and Versamow™ Selective Mulching, so it can adapt to any gardener's needs. Certified to IP54 for weatherproof, you don't even need to stop if it rains.

# Cordless Handheld Range

When the going gets tough, you need tools that work as hard as you do – efficiently, effectively and without needless noise or breaks.

Designed for professionals, our cordless handheld tools are powered by our new Honda Universal Battery System that delivers sustained power throughout its charge. Designed for use in all weather conditions\*, they are built for comfortable use over sustained periods and run on a common battery that can be changed in seconds – so you never need to stop for long. Together, the range gives you everything you need to get the job done.

\*Only applies when used in combination with the 9Ah DPW3690XA battery.

## THE RANGE

BRUSHCUTTER

HEDGETRIMMER

LEAF BLOWER

## Handheld features

### High performance

Built to satisfy the needs of professionals, our battery-operated handheld tools deliver the performance and durability you need, from the moment you begin, to the end of the job.

### Fully weatherproof

We know you don't want to stop when the rain starts to fall. That's why our cordless handheld tools are safe to use in all weathers when used with the 9Ah battery, which has a weatherproof coating.

### Power for professionals

Built to deliver full power throughout their charge, our interchangeable, fast-charging 9Ah batteries use a clever Thermo Smart technology allowing you to work for longer. Robust enough to withstand a 2 m drop, they also feature an LCD display showing you the remaining charge.

### Honda Universal Battery System

Our products run on the most advanced battery system in its class. With casings that can withstand real-life rough treatment, all batteries can be changed quickly and used to power Honda's new cordless range.

### Comfortable to handle

We know you need to be able to use your tools comfortably for hours on end, which is why the brushcutter includes an adjustable harness and a new bike handle for extra comfort. The hedge trimmer comes with a handle that can be adjusted for use at different angles and the leafblower features a belt mounted battery to reduce weight.

**Cordless** brushcutter  
 Built to deliver for longer

**When you need to tame the toughest undergrowth, you can count on our cordless brushcutter. Powered by a 36V brushless EC motor with direct drive to the cutting head, it delivers sustained power during use, with no need for servicing.**

The brushcutter is based on the Honda Universal Battery System, so the battery can be swapped out in seconds. Combined with the incredible performance of Honda's Li-ion batteries, this means you can work right through the day without taking forced breaks.

Safety is paramount, so the blade releases automatically if it jams, preventing the motor from stalling. With IPX4 certification\*, you can use even use the brushcutter in wet weather, making it indispensable all year round.

Designed for all-day comfort, the brushcutter is based on a lightweight design. A new ergonomic bike handle and adjustable harness come as standard and because it's battery operated, vibration and noise levels are low, making it ideal for early starts and late finishes.

\*Achieves this rating only when used with the 9Ah DPW3690XA battery.

**Cordless** häcksax & leaf blower  
 Stop at nothing

**Our cordless hedgetrimmer and leaf blower make light work of your outdoor tasks. Both run on brushless EC motors, built to deliver all the power you need. And because they are certified to IPX4 for water-resistance, they are usable all year round.**

The hedgetrimmer features hardened Swiss steel and double sided roughing blades, so you can power through the most stubborn foliage, and a rotatable rear handle makes for comfortable use at any angle.

The leaf blower can operate at variable speeds with interchangeable nozzles, so you can blast through dry, wet or heavy debris – whatever the job demands. Its belt-mounted, quick-release battery can be adjusted for left or right-handed use, making the tool itself even lighter to use.
